1. Claims 1 through 20 are pending.. Since non-elected claims 1 through 9, 19 and 20 are neither anticipated by, nor obvious over, the prior art by inclusion of the novel subject matter of claims 10 through 18, they have been rejoined to elected claims 10 through 18. Applicants' claim to foreign priority from GERMANY 10 2004 003 003.0 filed January 20, 2004 is acknowledged. Applicants' arguments filed March 29, 2010 has been entered and carefully considered.

***Reasons for Allowance***

2. With regard to the prior rejection of claims 10 through 18 under 35 U.S.C. 103(a), Applicants argue that Smith et al. alone does not teach reactor tubing with non-circular cross-section, and that Sederquist et al. teaches finned or corrugated tubing in the vaporizer located upstream of the steam reformer and not in the reformer itself. Applicants further argue that Hudson, while teaching an non-circular outer tube geometry, clearly teaches a circular inner tube geometry. Applicants' arguments are found persuasive. Therefore, the rejection of claims 10 through 18 as obvious over Smith et al., and in further view of Sederquist et al. and Hudson is hereby withdrawn.

3. The claimed invention is neither anticipated by, nor obvious over, the prior art.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
